The "Par 3" Mobile Restroom

The Par Three Mobile Restroom Trailer consists of the following:

Women: Two individual and private restrooms. **Men:** One individual and private restroom.

Each restroom has a real porcelain flushing toilet, hand washing sink, paper and soap dispensers and a trash receptacle. In addition, there is a wall hanging porcelain urinal in the Men's restroom. All three are Air-Conditioned and Heated. There are LED porch lights and Occupancy indicators on the outside of each entrance door. Each restroom offers 100% privacy.

Requirements: Level ground.

Power: access to one dedicated 20 amp electrical circuit within fifty feet of the trailer.

Water: Access to a water source with a garden hose connection within fifty feet of the trailer.

Failure to provide water or the proper dedicated electrical circuit will render the restrooms inoperable.

*If power and water is an issue, A Royal Flush, Ltd. can provide these two requirements for an additional charge.
